Mitigated Negative Declaration (MND) for the Proposed Design Review 18-1089, Coastal Development Permit 18-0939

The South Coast Air Quality Management District (SCAQMD) staff appreciates the opportunity to comment on the above-mentioned document. The following comments are meant as guidance for the Lead Agency and should be incorporated into the Final MND.

SCAQMD Staff's Summary of Project Description and Comments

The Lead Agency proposes to demolish a 432-square-foot, single-family residence on 8,372 square feet (Proposed Project). In the Cultural Resources Section of the MND, the Lead Agency stated that the residence is identified as being eligible for listing on the City's Historic Register as a K or Key structure¹. In the event that asbestos is encountered during demolition, SCAQMD staff recommends that the Lead Agency include a discussion to demonstrate compliance with SCAQMD Rule 1403 – Asbestos Emissions from Demolition/Renovation Activities² in the Final MND.

Pursuant to CEQA Guidelines Section 15074, prior to approving the Proposed Project, the Lead Agency shall consider the MND for adoption together with any comments received during the public review process. Please provide the SCAQMD with written responses to all comments contained herein prior to the adoption of the Final MND. When responding to issues raised in the comments, response should provide sufficient details giving reasons why specific comments and suggestions are not accepted. There should be good faith, reasoned analysis in response. Conclusory statements unsupported by factual information do not facilitate the purpose and goal of CEQA on public disclosure and are not meaningful or useful to decision makers and the public who are interested in the Proposed Project.

SCAQMD staff is available to work with the lead agency to address these issues and any other questions that may arise. Please contact me at lsun@aqmd.gov if you have any questions regarding the enclosed comments.

Sincerely,

Lijin Sun
