RE: Support for Proposed Amended Rules 1111 and 1121

Cc: Yessenia Moreno – ymoreno@earthjustice.org

Dear Mr. Krause and Ms. Farr:

On behalf of Move LA, we write to support the South Coast AQMD’s efforts to clean up appliance pollution through amending Rules 1111 and 1121. This proposed regulatory package will achieve more emissions reductions than any other effort passed in over three decades. The effort is also consistent with the 2022 Air Quality Management Plan (AQMP), which determined that “[t]he only way to achieve the required NOx reductions is through extensive use of zero emission technologies across all stationary and mobile sources.”¹ Given the serious pollution in this region, these health gains from advancing zero-emissions are desperately needed for millions of people. We are deeply concerned that the proposal is getting weakened through delaying compliance deadlines and many loopholes. We encourage staff to reject these efforts to reduce the efficacy of the rule. It is vital that these rules go to the Governing Board in a strong form and be adopted in February.

Move LA builds broad-based coalitions amongst diverse stakeholders seeking bold solutions to the region’s biggest challenges—i.e., mobility, affordable housing, air quality, homelessness, and climate change. Move LA advocates for the development of a transportation and goods movement system for Los Angeles County that is zero-emission, that includes of commercial and industrial buildings. We fight for policies to ensure prosperous and healthy neighborhoods free of pollution where people of all ages and incomes can live, work, and thrive.

We remain pleased to see the South Coast AQMD’s Go Zero program take form. These incentives will be really helpful in hastening the transition away from combustion in our buildings. It is our understanding that the South Coast AQMD’s Executive Officer has committed to a 5-fold increase in the \$21 million allocated to this program. It is vital the Board endorse this commitment via resolution to ensure \$100 million goes towards these incentives.

We appreciate AQMD staff’s significant work on these proposed amendments to Rules

¹ South Coast AQMD, 2022 AQMP, at Executive Summary.

1111 and 1121. Wrapping up this rulemaking process as soon as possible is vital, so we can work on the important aspects of actually transitioning away from combustion in our homes.

Sincerely,

A handwritten signature in black ink, appearing to read "E. Lipmen", written over a light gray rectangular background.
